

Hypertherm Powermax 600, incl. work lead (086000-U).

Maximum Manual cutting	16 mm
Maximum Mechanized cutting	6 mm

The Powermax 600 is a constant current, secondary converter chopper power supply providing continuously variable amperage from 20 amps to 40amps. It conforms to the following specifications:

Input	400 V, 50 Hz, 3 phase
Consumption	10 A

Output current	20 – 40 A
Duty cycle	50 %

Dimensions	Width	240 mm
	Height	510 mm
	Depth	430 mm

Weight	21 kg
--------	-------

Gas requirements

Gas type	AIR
	Nitrogen
Gas quality	Clean, dry and oil free
Gas flow	170 l/min
Gas inlet pressure	6,2 bar Min.
	8,3 bar Max.

Year of construction	2005
